Please note the additional hardware components from Sharp that are required for each device:

1. The following devices require the Network Printing/Network Scanning Expansion Kit (AR-NB2N) available from Sharp
 - AR-168S
 - AR-168D
 - FO-DC550
2. The following devices require the Function Upgrade Kit (AR-EB9) and the Network Printing/Network Scanning Expansion Kit (AR-NB3) available from Sharp
 - AR-M162
 - AR-M207
 - FO-DC550
3. The following devices require the Network Printing/Network Expansion Kit (AR-NB3) available from Sharp:
 - AR-M162E
 - AR-M207E

4. The following devices require the Function Upgrade Kit (AR-EB9) and the Network Printing/Network Scanning Expansion Kit (AR-NB3) available from Sharp:
 - AR-M162
 - AR-M207

5. The following devices require the Network Scanning Expansion Kit (AR-NS2 or MX-NSX1), network print controller (ARP17), and 128MB additional RAM available from Sharp; certain operating systems and protocols may also require the AR-NC5J network card.
 - AR-M237
 - AR-M277

6. The following devices require the Expansion Kit (AR-NS2 or MX-NSX1) available from Sharp:
 - AR-BC260
 - AR-M350N
 - AR-M450N

7. The following devices require the Network Scanning Expansion Kit (AR-NS3 or MX-NSX1) available from Sharp:
 - AR-M355N
 - AR-M455N
 - AR-M550N
 - AR-M620N
 - AR-M700N

8. The following devices require the LAN Interface Expansion Kit (FO-LN1) and the Network Scanning Expansion kit (FO-NS2) available from Sharp. The Network Printing Expansion Kit (FO-NP1) is optional, but not required.
 - FO-DC525
 - FO-DC535
 - FO-DC600
 - FO-DC635
